Height-adjustable swivel chairs

Designer
András Kerékgyártó

The chair's shell consists of two components: the backrest is made with the aid of 3D—Veneer technology, while the seat pan is produced through conventional moulded plywood process. The backrest, curved in all dimensions, provides an ideal support for the waist, along with its upper part and seat pan where the edges are bent in the opposite direction of the body in order to avoid cutting into the back and the thighs. The combination of old and new technologies enables us to offer an optimal seating comfort as other seats made entirely with 3D—Veneer, while making it available for a much wider audience. The sublime silhouettes counterbalance the sturdy character of FRIGATE which is designed to withstand the course of time.

Dimensions:

Height-adjustable swivel chair:

482 × 520 × 800-880 mm (L × W × H)

Seat height: 445-525 mm

Seat width: 413 mm

Seat depth: 435 mm

Weight: 6,5 kg

Height-adjustable swivel chair w/ castors:

495 × 520 × 800-880 mm (L × W × H)

Seat height: 445-525 mm

Seat width: 413 mm

Seat depth: 435 mm

Weight: 7,5 kg
